LIFT THE CHILDREN 2015 GALA

MESSAGE
FROM
THE PRIME MINISTER

PRIME MINISTER • PREMIER MINISTRE

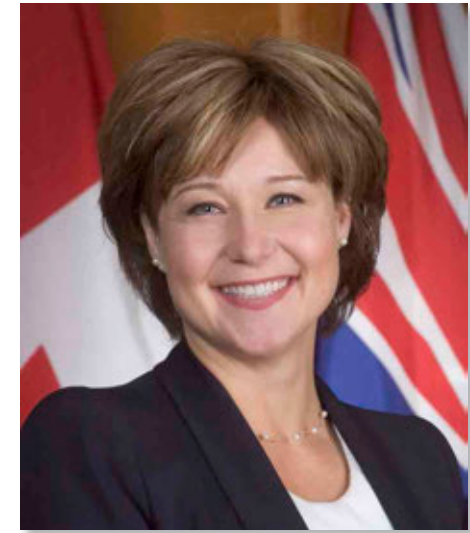

I am pleased to extend my warmest greetings to everyone attending Lift the Children Gala 2015.

The family unit is the basic foundation of our society: it provides children with the unconditional love, material comforts and social opportunities they need to grow up happy and healthy. Above and beyond the trauma of losing parents, orphans are deprived of this most fundamental support system. Lift the Children seeks out the most destitute children and brings them hope for a brighter future. Through the generous contributions of its patrons, the organization supports over 10,000 orphans in over 80 orphanages in Africa. Proceeds from this year's event will help to provide shelter, food, education and health care so that these children can achieve their highest potential.

On behalf of the Government of Canada, I offer you my best wishes for an enjoyable evening and for every success in meeting your fundraising goal.

Sincerely,

The Rt. Hon. Stephen Harper, P.C., M.P.

MESSAGE
FROM
THE PREMIER

BRITISH
COLUMBIA

As Premier of the Province of British Columbia, I am very pleased to welcome everyone to the 2015 Lift The Children Gala, featuring Deepak Chopra and Jason Hewlett, at the Pan Pacific Hotel in Vancouver.

Lift The Children is a phenomenal organization dedicated to helping orphans and destitute children around the world. The support goes to raise the spirits of those children, providing them with education, guidance, love and care, helping them to grow up and become self-sufficient. This is indeed a very impressive initiative and it is great to know that so many British Columbians are supporting it.

I would like to commend John Volken, his Foundation and everyone involved with Lift The Children, for your commitment and dedication to supporting children in need. Your work is truly making a difference and I thank you for giving so much of your time and effort to ensuring children in orphanages are not being forgotten.

Enjoy this very special evening.

Sincerely,

Christy Clark
Premier

ABOUT US

Lift The Children is a non-profit society dedicated to seeking out the world's most destitute children and helping provide them with the necessities, training, and inspiration they need to develop, grow, and become self-sufficient.

We work in some of the poorest slums in the world to provide aid DIRECTLY to orphanages caring for their children. 100% of all donations go directly to the orphanages.

Lift the Children is inclusive of all faiths and cultures, and is committed to feeding and educating children and to LIFT them out of poverty. We are currently helping support over 10,000 children in more than 80 orphanages in East Africa and have begun to implement long term self-sustainability programs with a goal of educating the poor out of poverty.

Our strategy is to reorient the agriculture and farming systems currently in use towards methods of food production that are highly productive, sustainable, and drought resistant. Over time, these programs will help to provide mass poverty reduction through education.

Our goal is to educate over 2 million people in permaculture over the next 5 years.

BUT WE NEED YOUR HELP!

MICHAEL NICKELS

Michael Nickels graduated from Guelph University in 1983 in Agribusiness. After working on many farms throughout Ontario, England, Spain, Australia, and Brazil, he bought a farm on Salt Spring Island, where he still lives, and developed Seven Ravens Permaculture Academy and Eco Forest.

In 1990 Michael visited Africa as a tourist with a keen desire to explore the forests and wildlife. After 4 months, he opened up his first of many tree nurseries in Africa, as he felt that he needed to do whatever he could to address the severe state of deforestation.

Over the years, Michael has opened up more than 25 nurseries throughout East Africa and has worked with schools to train teachers and youth about trees and sustainable organic agriculture. The success and implementation of the Practical Permaculture institutes in Kenya and Uganda in 2013 and 2014 are a direct result of 25 years of relationship building and honed design approach by Michael Nickels of Seven Raven Permaculture Academy and Eco Forest.

Michael's work will have a long lasting effect on the wellbeing of East Africa, as people will have greater food security, better education, and an improved environment.

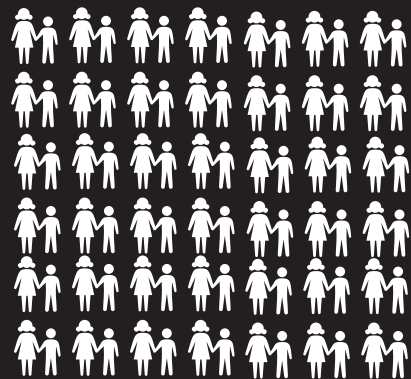

AARON ELTON

Aaron Elton has spent the last 9 years of his life living and working in Uganda developing a thesis centered around the concept of creating sustainable land use and production to cure the root causes of poverty.

Since 2009, Aaron has dedicated his life to spreading the knowledge of permaculture design. In 2014, his company, Love on Land, worked with the region's largest steel corporation, Roofings Group, to establish a sustainability school called Forever Forestry Club.

Aaron's work is founded on a long term plan to enable the orphanages of Africa to become self-feeding and self-funding. He believes this will create a generation able to apply practical agriculture knowledge to help end poverty in their communities.

OUR GOAL: TO LIFT CHILDREN OUT OF POVERTY AND EDUCATE OVER 2 MILLION PEOPLE IN 5 YEARS.

2014 LIFT THE CHILDREN PERMACULTURE HIGHLIGHTS

Since 2013, Lift the Children has been implementing long term self-sustainability programs with the goal of educating the poor out of poverty.

We are committed to the strategy of reorienting the agricultural systems currently in use in Africa toward methods of food production that are highly productive, sustainable, and that contribute to the realization of the human right to adequate food.

The backbone of this strategy is based on the agricultural science of permaculture.

WHAT IS PERMACULTURE?

Permaculture is "permanent agriculture". It mimics natural ecosystems to produce more food using fewer resources.

Compared to conventional farming, permaculture:

- Improves soil fertility and water management
- Adapts to climate change
- Reduces farming costs
- Produces higher crop yields
- Provides greater diet diversity

In 2013, Lift the Children formed the Joint African Sustainability Task Force and since then has been achieving our mandate of:

- Developing self-sustainable agricultural production and education programs
- Implementing permaculture systems cost effectively
- Building training facilities for teachers, students, and farmers
- Facilitating the sharing of permaculture training resources

LIFT THE CHILDREN 2014 PERMACULTURE SUCCESSES

Today, we are proud to announce that since you last raised your hands in support of Lift the Children, we have successfully completed two additional permaculture projects in partnership with Michael Nickels from Seven Ravens and Aaron Elton from Love on Land.

In October 2014, Michael Nickels of Seven Ravens Academy and his team of 7 students returned to Africa, this time to Calagi, Uganda to set up a Permaculture Teacher Training College. The focus of this training centre is the empowerment of women in permaculture. In just over 3 weeks a one acre garden was fenced, contoured for water harvesting, and planted into a diverse garden and food forest. A 24 person dormitory was built to house the students and a classroom has since been completed. The first course in Calagi was held in March of 2015. The trainings that will be held at the Calagi Permaculture Teacher Training College will help transform school yards all over Uganda.

In 2014, Lift the Children, under the direction of Aaron Elton of Love on Land, undertook two major permaculture design trainings in Kenya in the coastal city of Mombasa and the capital Nairobi. Over 28 orphanage management groups received the training. Bridging the gaps between religious and cultural sentiments, our sustainability training has sparked a new approach within Kenya's orphanage community to assist all orphanages to become self-feeding and self-funding!

In 2014, Aaron Elton also led a field team to begin our permaculture installation at the Care for African Kids facility in Gomba, Uganda, 35 kilometres from the equator. The installation to date includes a biogas kitchen for 200 children, extensive 1 acre vegetable gardens, 20,000 litres of water catchment tanks, guest housing for volunteers, and much more! We look forward to ongoing development with this organization as we aim to turn this 130 acre facility into an African icon in the push towards sustainable orphanages for the region."

On behalf of Lift the Children, Seven Ravens Academy, Love on Land, and the thousands of people whose lives will be positively changed by these permaculture initiatives, we would like to thank all of you who gave so generously at the Lift the Children gala in 2014.

The knowledge of permaculture and the know-how of self-sustainability is permeating down to future generations - from our institutes, to teachers, from teachers to students, and from students to the community.

THANK YOU FOR HELPING US LIFT 2 MILLION AFRICANS OUT OF POVERTY. 100% of the funds raised today go directly to support Lift the Children programs. Please raise your hands and support us generously.

Elegant and distinctive pieces for your home today, with quality and style to last a lifetime.... a Maitland-Smith treasure

A truly one-of-a-kind bar for the home is this black lacquer finished piano. With its black and white stone keys, at first glance it appears to be a grand piano. It doesn't matter if you can't play a note. The important thing is that your ice, beverages, glasses and blender are at your fingertips. One section of the stone top opens up for wine storage and another reveals the ice bucket. A power supply including MP3 socket is on the side. If you have space to fill, perhaps on a landing or loft, this bar is beautiful as well as functional.

THE FOUNDERS: Luwalira Robert grew up as a street boy in Kampala City. He was rescued and transformed by Declan O'Toole, a missionary priest. In early 2002 Declan was shot and killed in Northern Uganda. Luwalira started this orphanage later that year in memory of Declan and to give others the same help and hope he was given.

THE CURRENT CENTRE: Home Sweet Orphanage has one large unfinished room that accommodates all the children. It is located on five acres of land, with a piggery, four unfinished classrooms, and a kitchen. Currently the orphanage has no toilets.

SOURCE OF THEIR FUNDING: Lift the Children is currently their only source of ongoing support. They also receive funds from well-wishers.

AREAS OF ENDEAVOR: Home Sweet Orphanage provides three meals a day to all 50 children. They also support the children with medical care, clothing, shelter, and basic primary education.

PRESENT CHALLENGES: Financial struggles are their biggest challenge. They do not have enough funds to start an income-generating business and they need money for toilets and to build dormitories include providing the children with enough food, clothes, and medicine.

THE FOUNDERS: After starting a school in the community, Joyce Omurunga, a teacher, discovered a pressing need to help the orphans that were coming to school. She established the orphanage with Pastor Elisha.

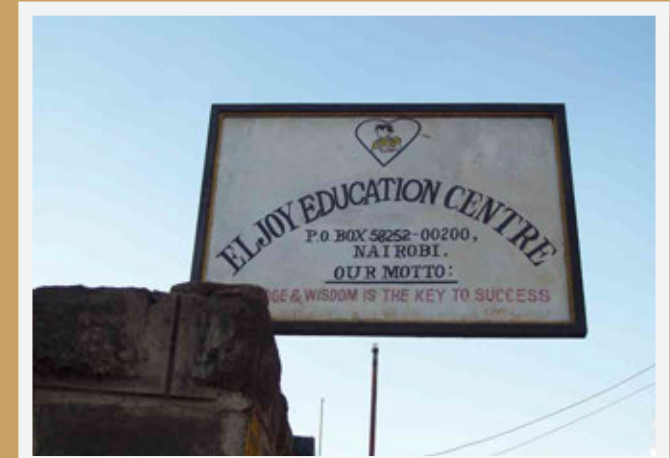

THE CURRENT CENTRE: Eljoy is currently renting the facility. They use one of the rooms as a kitchen during the day and convert it into a bedroom to accommodate the children at night.

SOURCE OF THEIR FUNDING: They receive income through school fees that some children are able to pay, as well as support from the community and well-wishers.

AREAS OF ENDEAVOR: The centre strives to provide children with food, shelter, clothing, and education.

PRESENT CHALLENGES: The most challenging problem they face is providing shelter; the cost of the rental rooms they use is quite expensive. Other challenges include providing the children with enough food, clothes, and medicine.
